

## VIII. Issues

Table 3

Issues	Affects Current Protectiveness (Y/N)	Affects Future Protectiveness (Y/N)
Erosion of soil cover and lack of vegetation in patches	N	N
Continuing release of PCBs from the springs onsite into Stout's Creek	Unknown	Unknown
Finalize Deed Restrictions	N	Unknown

## IX. Recommendations and Follow-up Actions

Table 4

Issue	Recommendations Follow-up Actions	Party Responsible	Oversight Agency	Milestone Date	Affects Protectiveness	
					Current	Future
Erosion of soil cover and sparse vegetation	Repair soil cover and reseed portions of site; frequent inspections to identify problems early; liner added over soil cover to prevent erosion from flowing springs	Viacom	EPA	6/30/02 (Finished)	No	No
Poor drainage with surface water onto the sites soil cover	Improve site drainage by off-site channeling surface water around site	Viacom	EPA	6/30/02 (Finished)	No	No
PCBs released from springs onsite into Stout's Creek	Investigate site hydrology	Viacom	EPA	8/31/03	?	?
PCBs released from springs onsite into Stout's Creek	Modification of the Bennett's Dump ROD Amendment	EPA	State	12/31/03	?	?
