

TABLE 3
FISH TISSUE SAMPLES SUBMITTED FOR ANALYSIS

Sample ID Number	Conformance with Sampling Plan	Quality Control Sample
Conard's Branch Site		
<i>Creek Chub – Target weight range of 10 to 36 grams</i>		
NL0001 to NL0004	All samples within target weight range	NL0003 as duplicate for NL0001
NL0005 to NL0008	Composite sample	Not applicable
NL0009	Composite sample required to meet minimum weight for whole body MS/MSD analysis	MS/MSD
Richland Creek Upstream Site		
<i>White Sucker – Target weight range of 60 to 120 grams</i>		
NL0010 to NL0015	Samples within target weight range	NL0014 as duplicate for NL0012
NL0016		MS/MSD
<i>Creek Chub – Target weight range of 30 to 60 grams</i>		
NL0017, NL0018, and NL0021	All samples within target weight range	Not applicable
NL0019, NL0020, and NL0022	Composite sample required to meet minimum weight for whole body analysis	
NL0020 and NL0021	Gastrointestinal tracts removed because samples died in purge bucket	
Richland Creek Downstream Site		
<i>White Sucker – Target weight range of 60 to 120 grams</i>		
NL0023 to NL0028	All samples within target weight range	NL0027 as duplicate for NL0024
NL0029	Composite sample required to meet minimum weight for whole body MS/MSD analysis	MS/MSD
NL0030 to NL0033	All fillet samples exceeded 20 grams	NL0031 as duplicate for NL0030
NL0034	Equipment rinsate sample for fillet knife	Rinsate blank
