**Re: Quarterly Inspection and Maintenance Report for Fourth Quarter 2004
Lemon Lane Landfill, Bloomington, Monroe County, Indiana**

This letter report summarizes the quarterly inspection and maintenance activities completed at the Lemon Lane Landfill site during the fourth quarter of 2004. This report has been prepared in accordance with procedures and reporting requirements outlined in the June 2001 RCRA Cap Inspection and Maintenance Plan (CIMP) prepared by Viacom Inc. (Viacom). The scope of inspection and maintenance work for the Lemon Lane Landfill site is summarized in table form as Appendix B to the June 2001 CIMP.

The quarterly inspection was performed on December 21, 2004, by PSARA Technologies, Inc. (PSARA). A copy of the Routine Checklist Form for this inspection event is attached. This form documents conditions and maintenance needs at the time this quarterly inspection was completed. A Non-routine Maintenance Report is used to document non-routine maintenance activities completed during the quarter. No non-routine maintenance tasks were performed for the fourth quarter of 2004. For this reason, no Non-routine Maintenance Report is included.

Routine maintenance during the fourth quarter of 2004 was limited to a mowing of the landfill cap, trimming along surface drainage ditches and around piezometers, and the application of annual herbicide and fall fertilizer treatments.

No major maintenance issues were observed during the site inspection on December 21. As stated in previous inspection reports, there are a few areas of accumulated sediment in the surface water drainage ditches around the cap, but none of these conditions are affecting the function or performance of the ditches at this time.

Non-routine repairs completed during the third quarter of 2004 (limited seed and erosion mat placement) appeared to be in very good condition.

The next quarterly inspection at the Lemon Lane site is scheduled for the second week of March 2005. If you have questions regarding this report, please contact Richard McCandless at (812) 335-0424.

Sincerely,

Dorothy M. Alke
